NAHRIM CHANNEL STABILIZER (NUCLeus)

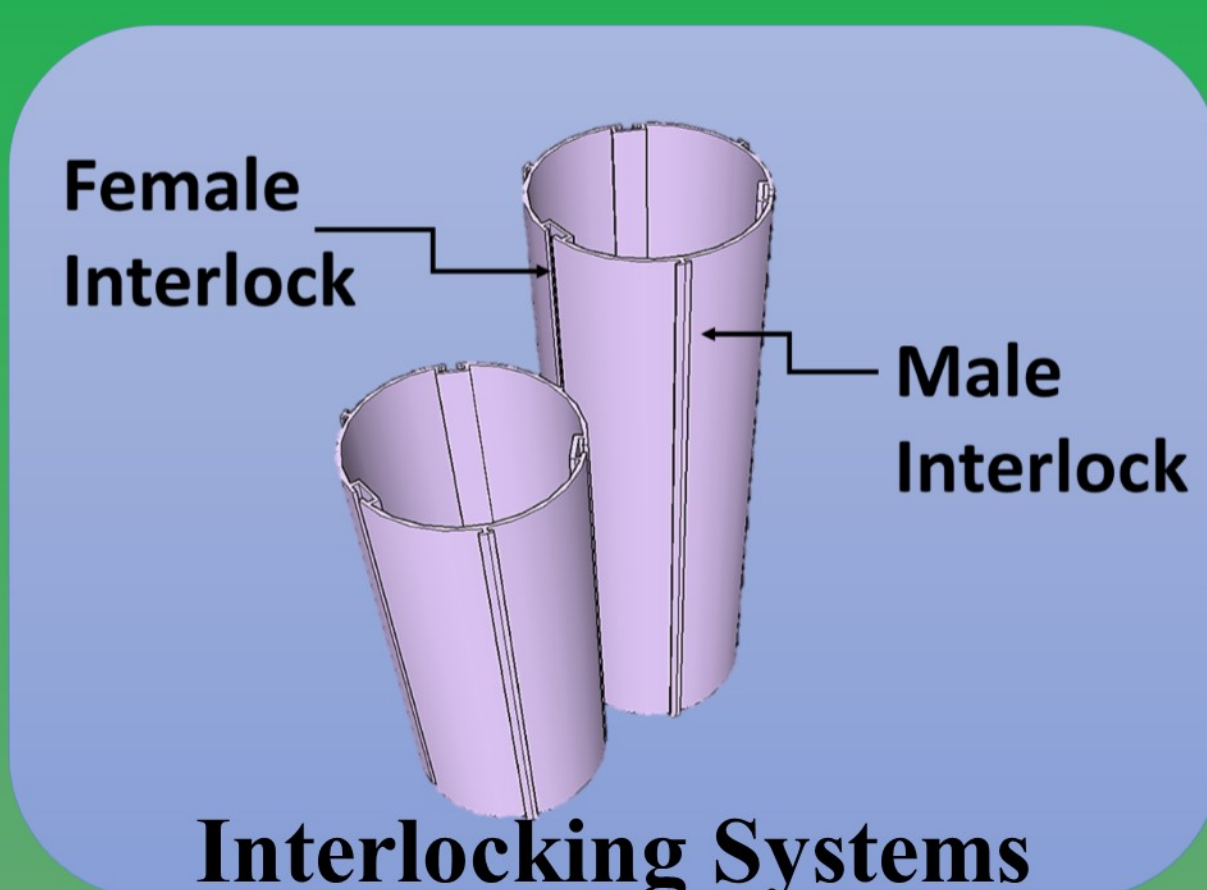

PRODUCT DESCRIPTIONS

The Geo-technique study has found that slope failure, erosion and scouring are triggered by the river toe failure.

NAHRIM Channel Stabilizer (NUCLeus) is an innovative product that emphasizes the protecting the river toe for soil erosion control. NUCLeuS; an innovative, interlocking modular block for soil erosion control. It is invented to provide the solution to protect the river toe.

The interlocking properties of NUCLeuS is designed with a strong structural body to prevent soil erosion. NUCLeuS is basically a formation block of tubes made by specially formulated plastic material.

THE UNIQUE FEATURES OF NUCLeuS

- **Environmentally friendly**
- **Maintenance free**
- **Strong and durable**
- **Cost effective**
